
D-APP FOR ACCOUNTABILITY

FAZIAN-ABID-RASHID-TALHA

problem

Faced by stakeholders dealing with governments, charities & public companies
when the funds are acquired & used for specific reasons

→ ***Accountability***

*where did my money go &
for what is it used?*

→ ***Responsibility***

who specifically moved my money?

→ ***Transparency & Trust***

*is it easy for me to acquire this
knowledge?
can i really trust the office?*

BLOCKCHAIN! *Can help.*

our system would **ENGRAVE**
the details of fund spendings between
participants **ON THE ETHEREUM**
BLOCKCHAIN

Complete audit trail

know where each of you \$ is
spent

trust is **system-intrinsic**
